MISSION

Providing innovative culinary
experience and healthy living
solutions for you.

VISION

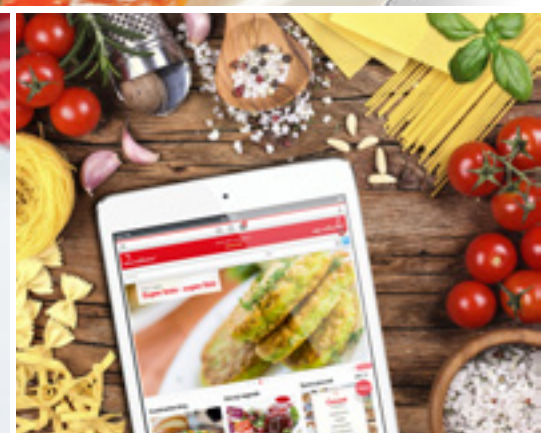

Dedicated to improve
everyday quality of
life for our consumers,
customers and employees
by being innovative and
international.

It all started in 1934...

Our history begins in **1934** with a fruit processing plant, founded by Wolf brothers in Koprivnica. In **1947** the plant becomes government owned and Podravka gets the name it has today. In **1957** our first packet soups were produced, and they were presented at the Zagreb Fair that fall.

Year 1958 is very significant for our development. That year in our research laboratories, a team led by prof. Zlata Bartl invented Vegeta, the most popular universal food seasoning in the world. Only a year later, Vegeta was launched to the market and it unstoppably headed for success.

Providing at that time a completely innovative approach to the presentation of a food product, through its application in cooking and advices of renowned chefs, Vegeta was brought closer to the consumers and took a firm hold in the position of everlasting and omnipopular universal food seasoning. "... and a tablespoon of Vegeta", a famous tagline from Vegeta's TV show lives even today in the minds of Vegeta's faithful consumers in more than 40 countries around the world.

Today we are an international, basically food company, a leader in the region of Southeast Europe. Our continuous innovativeness enables us to create new, quality products that win the consumers trust around the world.

Another significant business of our company is pharmaceuticals, under the name Belupo, where it ensures growth and long-term values for employees, users and society as a whole through recognizable partnership approach to selected therapeutic groups.

In the food industry we are an innovative leader, primarily in the regions including Southeast, Central and Eastern Europe, and we develop as a company capable of providing fast response to changes in the business environment. Our branch offices and representative offices are located in 23 countries around the world, and besides that we have our own distribution network in 10 countries of Central and Southeast Europe, and production facilities in 4 countries. Our current production range contains more than 1000 different products, and Podravka, Vegeta, Lino and Dolcela are among the most renowned brands in the region.

The symbol of our company is a heart, and it expresses care, heartiness and love – care for consumers and all interested in this company, determination in response to the challenges of the time, feelings and love for Podravka.

Following our mission, we offer innovative culinary experience and healthy living solutions for our consumers. Apart from creating numerous brands, and winning many awards and recognitions for the wide range of our business activities, loyalty of our consumers is something that is considered as our biggest success. What differs us from other companies is the ability to understand consumer needs, our high product quality and successful adaptation to increasing market demands.

The strongest promise is high quality of our products. They are practical and, most important, safe as a result of implementation of processes for selection high quality raw materials, know-how and constant modernisation of technology. Using the advantages of global and local, they are adjusted to national cuisines, respecting the particularities of local taste preferences.

Vegeta, Podravka, Lino, Eva, Dolcela and Kviki are some of the renowned brands of our company. Our greatest asset, apart from our brands, are our employees, their knowledge and their expertise. Today we employ about 6700 people who are constantly developing, owing it to the investments in their knowledge, which results in numerous innovations and new products.

In more than 40 countries around the world numerous consumers have recognized the value of our products and have given us their trust.

Podravka – Always from the heart!

We manage quality according to high standards

Food safety is a constituent, integral part of our management system. It represents our business etiquette and its primary goal is protecting consumer health. Our business quality system experts are actively included in the work of local and international associations dealing with systemic approach to quality. Our approach to food safety and quality is defined in the Food safety and quality management system policy, one of the basic documents of the management system. Our activities and results in this area prove our ability to meet the demands of global markets by establishing a more effective business practice.

Integrated management system is based on the following norms:

- **Halal** – products aligned with Islamic food conventions; certified by ESMA
- **ISO 9001** – Quality Management System, **ISO 14001** – Environment management system, **ISO 22000** – Food safety management system, **OHSAS 18001** – Occupational Health and Safety Assessment Specification
- **HACCP** principles of the Codex Alimentarius – Hazard analysis and critical control points
- **IFS** – International Food Standard
- **BRC** – British Retail Consortium, food products quality and safety
- **NSF** – guarantees water quality from spring to consumer

PICKLED VEGETABLES

AJVAR

Recognizable home-made flavours prepared according to traditional recipes make our vegetable products a perfect choice for lovers of excellent taste, originality and high quality.

Vegetable products

Picked at the most favourable time from domestic fields and prepared without artificial ingredients, Podravka's vegetables are used as starters, salads, side dishes and as a natural ingredient in various dishes.

Podravka Ajvar is a delicious vegetable spread, made of carefully selected bell peppers and eggplants, processed in a traditional, almost hand-made production process. Its specific home-made flavour ensures its position as an irreplaceable item in your appetiser list.

Healthy vegetables
every day!

Good to know:

- Abundant in nutritional substances
- Products made from selected high-quality vegetables
- All nutritional values of vegetables preserved
- Convenient and simple side dish that enriches every meal

Podravka's culinary promoters

Podravka's team of culinary promoters works with the same members practically since it was founded 15 years ago, and during that time it has become one of the most recognizable and most active in all the markets where Podravka's products are used. Being constantly present on Podravka's markets, they bring and collect expert knowledge and in some way they are true ambassadors of gastronomy.

Their results are shown through their work:

- tracking and making of trends
- contact with buyers
- participation and organization of manifestations
- presentations, education and professional lectures
- professional partners to the Faculty of Tourism and Hospitality Management and trade schools

- Cooperation with the Croatian Culinary Federation
- Olympic Games in Athens (2004) and Beijing (2008) - presentation of Croatia and Podravka in Croatian houses
- presentation of Croatian culinary heritage in the UN building 2007
- the first presentation of Croatian gastronomy in the European Parliament building in Brussels 2013
- presentations in Croatian embassies all around Europe
- participation in many international fairs (Köln, Moscow, Taiwan)
- building the biggest stuffed cabbage roll for the Guinness book of records
- building the biggest pancake and cakes
- participation in many culinary shows in the region
- devising and creation of new products, along Podravka's team of technologists and nutritionists
